Optimism and hard work are characteristics I will bring to your work environment. I am a fast learner and have a proven track record of success in both team and independent settings. A confident and reliable individual with a strong set of core values and a desire to use my knowledge.

EXPERIENCE

OCII, Tulsa, OK – *Security Compliance Analyst*

Ensured implementation of NIST-based security controls by conducting technical and non-technical assessments of client IT/OT networks. Supported TU faculty and cybersecurity initiatives, applying industry and government best practices (DoD, NSA, DHS) to strengthen security control programs and business services.

MARS, Chicago, IL – *Global Cybersecurity Intern*

Gained hands-on experience supporting risk assessments, threat analysis, and the implementation of security controls to protect global digital assets. Improved security KPIs by 10% through CTF pitch, SSO integration, Container Security Research, and Phishing Simulations. I also participated in the International Mars Intern Innovation Competition, presenting creative cybersecurity solutions to senior leadership.

CBIZ, Oklahoma City, OK – *Risk Advisory IT Intern*

Conducting security assessments and ensuring compliance with frameworks like NIST, CSC, and ISO; accurately documenting client evidence. Client engagement for security services, delivering quality services within set timelines and budgets, while swiftly adapting to shifting priorities. I maintain knowledge of security standards and best practices, effectively communicate with clients and team members, manage conflicts professionally, and contribute to firm-wide initiatives.

University of Tulsa, Tulsa, OK – *SOC Analyst*

Actively using team Dyna mix and Microsoft security to threat hunt/ write reports on suspicious activity around the campus. Additional training through our IT - Security department includes network scanning, logging, and vulnerability assessment.

Starbucks, Tulsa, OK – *Barista*

Anticipate customer and store needs by constant evaluation. Assists with new partner training and contributing to a positive team environment through my effective leadership and analysis skills.

EDUCATION

University of Tulsa, Tulsa, OK – *B.S. Cybersecurity*

Worked on meaningful projects through my degree such as JWT Token Authentication, Website Traversal, C Structures, Data Overflow, ArchLinux, Multithreaded Web Server, Memory Allocator, etc.

SKILLS

Programming Proficient:
- Python
- Java
- C/C#/C++
- JavaScript
- HTML
- CSS
- Visual Studio

Red Teaming Proficient:
- Penetration Testing
- Social Engineering
- Reverse Engineering

Blue Teaming Proficient:
- Cyber Forensics
- Threat Hunt/Monitoring
- Risk Assessment

Machine Learning Models
- PyTorch, Object Detection, Selenium, Image CAPTCHA cracking

CERTIFICATIONS

CompTIA Security+

Girls Who Code Certificate

OSHA 10-hour Certified

Forklift Certified

EXTRACURRICULARS

CPTC - Consultant

Women in Cybersecurity-UA and Website Manager

WomENS-VP

Route66 Cyber Clubs - Infrastructure Team

Sound of the Golden Hurricane - Percussion

Hivestorm Team Captain

NCAE Cyber Games - Contestant
