EDUCATION

University of Tulsa

Master of Science in Cyber Studies

Tulsa, OK

August 2026 – May 2028 (Expected)

- Courses in Progress: CompTIA PenTest+, CompTIA Security+, and CISA Prep courses.

University of Tulsa

Bachelor of Science in Cybersecurity

Tulsa, OK

August 2022 - May 2026

- Project Portfolio: https://n00dlen00b.github.io/Project_Portfolio/

WORK EXPERIENCE

Associate Cyber Engineer

Northrop Grumman

Roy, UT

June 2026 – Present

- Executed black-box and grey-box penetration tests against an internal web application using Burp Suite, Nmap, and Metasploit, identifying 8+ vulnerabilities including SQLi and XSS attack vectors.
- Documented and prioritized findings using CVSS scoring methodology, delivering a formal penetration test report to stakeholders within a 10-week engagement timeline.
- Enumerated and mapped application attack surface using OWASP Top 10 framework, reducing critical risk exposure by 30% through validated remediation retesting.

Security Compliance Analyst & Researcher

Oklahoma Cyber Innovation Institute

Tulsa, OK

August 2025 – July 2026

- Conducted technical and non-technical NIST SP 800-53 control assessments across 10+ client IT/OT environments, reducing identified control gaps by 25% through remediation guidance.
- Analyzed client security documentation and system configurations against DoD, NSA, and DHS frameworks, delivering assessment reports that improved client compliance posture by 20%.
- Communicated risk findings and remediation roadmaps to C-level stakeholders, enabling prioritized remediation of 30+ high and critical findings per engagement.

Global Cybersecurity Intern

MARS

Chicago, IL

May 2025 – August 2025

- Engineered and launched phishing simulations targeting 500+ employees across 3 business units, achieving a 22% click-through rate that informed security awareness training priorities. Developed formal CCSP program for security controls and applications for acquisitions.
- Presented risk assessment findings and remediation recommendations to senior leadership across 2 global business units.

Risk Advisory IT Security

CBIZ

Oklahoma City, OK

May 2024 – August 2024

- Assessed 20+ client environments against NIST CSF, CIS Controls, and ISO 27001 frameworks, identifying an average of 18 control gaps per engagement and delivering remediation roadmaps within 2-week turnaround windows.
- Reviewed and validated access control configurations, patch management workflows, and system hardening settings across 15+ client systems, reducing critical finding counts by 30% post-remediation.
- Produced audit deliverables including risk matrices, control testing workpapers, and executive summaries for 4 client engagements, maintaining 100% on-time delivery under strict budget constraints.

SOC Analyst

University of Tulsa - IT

Tulsa, OK

May 2023 – May 2024

- Performed vulnerability assessments and Nmap network scans across 200+ university-owned assets, producing remediation tickets that resolved 40+ medium and high severity findings per quarter.
- Escalated and coordinated response for 5 confirmed security incidents, collaborating with IT leadership to contain threats and restore affected systems within a 4-hour average resolution window.

Shift Lead

Starbucks

Tulsa, OK

July 2021 – May 2026

- Led daily shift operations for a team of 8+ partners in a high-volume location generating \$15K+ in daily revenue, maintaining a 95% customer satisfaction score across 12 consecutive quarters.

LEADERSHIP & ACTIVITIES

Activities: WiCYS – Ambassador | STEMinsts – VP | Route66 Cyber Clubs – Infrastructure Team | Sound of the Golden Hurricane – Percussion | Hivestorm CTF Team Captain | NCAE Cyber Games – Competitor

Skills: Burp Suite, Nmap, Metasploit, Wireshark, Nikto, Gobuster, SQLmap, Python, Java, C/C++, JavaScript, HTML, Bash, Microsoft Defender, Threat Hunting, Vulnerability Assessment, Incident Response, SIEM, Container Security, Phishing Simulations, Social Engineering, Reverse Engineering, Firmware Analysis, Docker, Kubernetes, Linux (Arch, Ubuntu), TeamDynamix, Visual Studio, PyTorch
